

No. of Functional Features Included in the Solution

Date	02 October 2026
Team ID	SWTID-2026-1380
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Home Interior Budget Planner	Takes the total budget, room types and item quantities and returns budget-based home decor suggestions.	home_planner.html and route	Done	0.75
2	Party Budget Planner	Takes the budget, guest count, event type and venue details and splits the budget across catering, venue and decoration.	party_planner.html and route	Done	0.75
3	Jewelry Budget Planner	Takes the budget, occasion and style, with optional outfit image upload, and suggests matching jewelry.	jewelry_planner.html and route	Done	0.75
4	AI Budget Recommendations	Gemini 1.5 Flash Pro returns structured recommendations with a budget breakdown, calculation table and remaining budget.	Gemini prompt and response handling	Done	1
5	Platform Shopping Links	Creates search links for each recommended item on platforms such as Amazon, Flipkart, IKEA, Swiggy, Zomato and OYO.	Link-building code in the planner functions	Done	0.5
6	User Registration and Login	Lets users register, log in and log out securely, using bcrypt password hashing and JWT-based sessions.	Authentication routes (/register, /login, /logout, /token)	Done	0.5
7	Dashboard and Recommendation History	Shows recent recommendations and past queries so users can review and reuse earlier plans.	dashboard.html, history.html and /history	Done	0.5
8	Home and Testimonials Pages	Landing page introducing the planners, plus user testimonials, in a responsive layout.	index.html and styles.css	Done	0.25

Feature Summary:

Metric	Count / Value
Total Features Planned	8

Total Features Implemented	8
Core / Must-Have Features	5

Additional / Nice-to-Have Features	3
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	6	Planner forms and result pages, login and register pages, dashboard, history, home and testimonials pages
2	Backend / Logic	4	FastAPI planner routes, prompt building, budget breakdown and remaining-budget calculation
3	Database / Storage	2	User accounts and recommendation history
4	API / Integration	3	Gemini 1.5 Flash Pro API, shopping-link generation, outfit image input for the jewelry planner
5	Security / Authentication	1	Registration, login, logout, bcrypt password hashing, JWT tokens and API key kept in .env

Note: One feature can belong to more than one category, so the category counts add up to more than 8.
