Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] • Budget-conscious individuals and families planning home interior upgrades, parties or jewelry purchases • Want practical, personalized choices without wasting money • Comfortable searching and planning online	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] • Limited, fixed budget • Limited time to compare many options • Uses a smartphone or computer with internet access • May not know which options suit the occasion or style	5. AVAILABLE SOLUTIONS PROS & CONS [AS] • Shopping sites (Amazon, Flipkart, IKEA): wide choice and reviews, but too many options and manual comparison • Event and booking platforms (Swiggy, Zomato, OYO): easy to use, but not planned around one overall budget • Advice from friends, family and social media: trusted, but generic and not tied to the budget
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] • Too many choices and hard to compare them • Risk of exceeding the budget • Time-consuming search across many websites • Generic recommendations • Frequency: every time a purchase or event is planned	9. PROBLEM ROOT / CAUSE [RC] • No single tool combines budget with personal requirements • Options and prices are spread across many platforms and must be compared manually • Recommendations are not personalized to the budget, occasion or style	7. BEHAVIOR + ITS INTENSITY [BE] • Searches online, compares prices and checks reviews • Sets a budget and looks for alternatives • Asks family and friends for suggestions • Intensity: high, as the user keeps comparing until sure of staying within budget

3. TRIGGERS TO ACT [TR] • A planned purchase, home makeover, party or jewelry occasion • A fixed budget that must not be exceeded • Feeling overwhelmed by too many choices • Suggestions from friends and social media	10. YOUR SOLUTION [SL] PocketSmartAI is an AI-powered budget and recommendation assistant. The user enters a budget and requirements and chooses Home Interior, Party or Jewelry planning. • Gets personalized recommendations matched to the requirements, occasion and style • Sees estimated spending checked against the budget • Compares options in one place, saving time • Saves plans and reviews them later	8. CHANNELS OF BEHAVIOR [CH] ONLINE • Search engines, shopping and event platforms (Amazon, Flipkart, IKEA, Swiggy, Zomato, OYO) • Social media and online reviews OFFLINE • Advice from family and friends • Word of mouth about products and services
